

Fire blanket

The safe and easy way to extinguish small fires in liquids

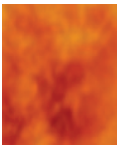

A fire blanket efficiently extinguishes fires in liquids in e.g. deep fryers, oil barrels, buckets, etc., but is also highly efficient in case of fire in people's clothes.

The blanket is woven from 0.4 mm glass thread, and the flexible, strong and light blanket has a very high melting point. The hems are overlapped with fire-resistant Nomex-thread, and on the blanket are mounted two straps for pulling the blanket out of the cover.

LOTEK[®]
SAFETY

Fire blanket

Prod. no.: AB 3003

Fabric type: 440 EC 9 - 136

Length 1,800 mm

Width 1,000 mm

Thickness 0.4 mm

Weave 4 shaft satin

Strength

Tensile break force 1,105 N/cm

Impact break force 640 N/cm

Net weight 0.767 kg

Total weight 0.796 kg

Max operating temperature 550° C

About Lotek Safety

More than 35 years of experience make Lotek A/S one of the leading suppliers of products and solutions in the fields of fire protection, safety and rescue. Lotek A/S is a well-established company whose experience and quality product agencies are key components in ensuring our customers products and solutions of the optimum quality at the best price.

DBI certification number 232.398.
